

# Making Pot pourri

Pot pourri is a blend of dried flowers, herbs and leaves that are used to naturally scent a room.

*To make:*

1.

Pick some flowers, herbs and leaves.

2.

Tie them in a bunch and hang them upside down until they have dried.

3.

Cut the flower heads off and arrange in a dish with the leaves.

You may want to add a few drops of essential oil to make your pot pourri even more scented.
